Undergraduate Summer Research Programme

Eligibility

The Cancer Research UK Cambridge Institute Summer Research Programme is intended to provide undergraduate students with hands-on research experience during their summer vacation.

To be eligible for consideration:

1. Applicants should be able to commit to a full 10 weeks of study between 29 June to 5 September.
2. Applicants must be registered for undergraduate study. (Ugandan applicants, see note 1)
3. Applicants must not have entered their final year of undergraduate study before participating in the programme. Undergraduate study can also be referred to as bachelor’s degree (BSc or BA) or first degree (or equivalent). (Ugandan applicants, see note 1)
4. Applicants should have an excellent academic record (and be able to provide references as evidence)
5. Applicants should have a good working knowledge of the English language (reading, writing and speaking)
6. Applicants should be interested in undertaking PhD study.

Note 1: Ugandan applicants, who have already completed undergraduate or Masters study are eligible to apply.

The University of Cambridge is committed to equality of opportunity and admission to the programme will be solely on the basis of academic merit.
